PREM DEVNATH

Android Developer | AI & Automation Engineer | Web Developer

premdevnath88@gmail.com | +91 93519 76676 | Rajasthan, India | LinkedIn | GitHub

SUMMARY

Android Developer with hands-on experience in Kotlin, Jetpack Compose, and MVVM architecture. Proficient in on-device ML/Computer Vision (ML Kit, CameraX), REST API integration, and AI-driven automation (n8n, Gemini 2.5 Flash). Skilled in building scalable mobile applications and optimizing AI token pipelines — delivering clean, maintainable digital solutions.

TECHNICAL SKILLS

Languages: Kotlin, Java, C/C++, XML, HTML, CSS, JavaScript

AI & Automation: Gemini API, Hugging Face (ZeroGPU / Gradio), n8n Workflows, AI Agent Development, Vibe Coding, Generative AI Tools

Developer Tools: Android Studio, Git, GitHub, n8n, Antigravity, Microsoft Power Apps, Power Automate, Power BI

Frameworks: Jetpack Compose, CameraX, ML Kit, Dagger Hilt, MVVM, Room, DataStore, Material Design 3, Unit Testing (JUnit)

Other Skills: REST API, Firebase, Mobile App Development, Code Review, Low-code/No-code Automation, SQL (Basic), Performance Optimization

EXPERIENCE

QVK Deep Food Pvt. Ltd — Website Developer **Nov 2025 – Present**

Bhilwara, Rajasthan, India

- Developed and managed the company website to support online presence and digital operations.
- Handled website updates, content changes, and basic maintenance tasks in collaboration with internal teams.

Croma Campus — Android Developer Trainee **Apr 2024 – Sep 2024**

Noida, India

- Developed 3+ native Android applications using Kotlin, Jetpack Compose, and MVVM clean architecture.
- Integrated Firebase Auth, Realtime Database, and Firestore for secure, real-time app functionality.
- Applied performance optimization techniques to reduce app load time and improve UI responsiveness across devices.
- Participated in code reviews and followed clean code practices to maintain code quality and team standards.

PROJECTS

MAYA — Live AI Virtual Try-On Android App GitHub

Kotlin | Jetpack Compose | CameraX | ML Kit | Room | DataStore | Hugging Face ZeroGPU

- Built a native Kotlin and Jetpack Compose Android application (MVVM, CameraX, ML Kit Pose Detection, Room, DataStore) featuring a smart body-framing camera guide, multi-source garment import (Photo Picker, rear camera, and Jsoup product-link extraction), and MediaStore video saving.
- Architected a replaceable VirtualTryOnProvider layer connecting zero-cost Hugging Face ZeroGPU / Gradio VTON endpoints (FASHN VTON v1.5 / CatVTON) with an on-device pose-tracked fallback, timed session controls, and strict privacy/quota safeguards.

AI Lead Management Automation System GitHub

n8n | Gemini 2.5 Flash | JavaScript | Webhooks | Google Sheets | Gmail API

- Built an n8n webhook workflow with upfront JS validation, Google Sheets deduplication, and a hybrid rule-based + Gemini 2.5 Flash pipeline to classify leads as Hot, Warm, or Cold.
- Reduced unnecessary AI API calls and token usage by filtering invalid, duplicate, and fallback-handled leads early, while automating Gmail follow-ups and dual-tab execution logging.

EDUCATION

Master of Computer Application (MCA) — Rajasthan Technical University, Kota **Jun 2025 – Present**

Bachelor's in Computer Application (BCA) — Maharshi Dayanand Saraswati University, Ajmer (GPA: 7.5) **Aug 2022 – May 2025**

CERTIFICATIONS

Software Engineering Virtual Experience — JPMorgan Chase & Co. (Forage)
